SUMMARY

AI and Full-Stack Developer specializing in LLM applications, Agentic AI systems, RAG pipelines, and scalable SaaS platforms. Experienced in building production-ready applications using Python, FastAPI, Java, React, Next.js, and modern AI frameworks including LangChain, CrewAI, and Hugging Face. Passionate about developing intelligent automation systems, AI-powered products, and high-performance full-stack architectures.

EDUCATION

Karunya Institute of Technology and Sciences
B.Tech in Artificial Intelligence and Data Science
CGPA: 7.7 / 10

Coimbatore, India
2023 – Present

EXPERIENCE

FlickAI

Software Developer - Intern

Bangalore, India

02/2026 – 06/2026

- Developed a pioneering AI-powered accounting SaaS application with agentic support tailored for the Indian market.
- Collaborated as a frontend developer and deployment pipeline specialist within an agile development team.
- Streamlined deployment workflows and contributed to improving development efficiency.

CoreInsightsAI

AI and Software Developer - Intern

Bangalore – Remote

06/2025 – 02/2026

- Developed full-stack SaaS applications using Next.js, Node.js, and Python.
- Integrated Computer Vision and LLM-based automation systems into production-grade applications.
- Optimized frontend, backend, and deployment pipelines in an agile environment.

KarunyaHacks

Full Stack Trainee

Coimbatore – On-site

07/2024 – 03/2025

- Developed frontend interfaces and integrated RESTful APIs for inter-college platforms used by 500+ students and faculty members.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, Dart

AI/ML Frameworks: TensorFlow, PyTorch, Scikit-learn, LangChain, LangGraph, CrewAI, Hugging Face, Ollama

Backend Development: FastAPI, Node.js, Spring-Boot REST APIs, MongoDB, Firebase

Vector Databases & RAG: Pinecone, Qdrant, FAISS, Neo4j

Frontend Development: React, Next.js, Tailwind CSS, HTML, CSS

Mobile Development: Flutter, Dart

DevOps & Tools: Docker, Git, GitHub, Linux, Postman, Streamlit, OpenRouter, n8n

Soft Skills: Problem Solving, Communication, Team Collaboration, Leadership, Adaptability, Critical Thinking, Agile Development, Time Management

PROJECTS

MindKraft 2025 – Event Management Platform

- Built a full-stack event management platform capable of handling 500+ concurrent users.
- Integrated Razorpay payment gateway processing over 1.5L in ticket sales.
- Reduced API response time by 40% through query optimization and Redis caching.
- Tech Stack: React, Node.js, MongoDB, Redis, Razorpay, Docker*

BlogRelay – AI Blog Writer Agent

- Built a 4-agent CrewAI workflow utilizing Mistral AI to automate blog generation.
- Reduced content creation time from 3 hours to 15 minutes while maintaining 90% quality.
- Implemented iterative feedback loops improving content quality by 30%.
- Integrated Gmail API support for distribution to 200+ subscribers.
- Tech Stack: FastAPI, Mistral AI, CrewAI, LangChain, Celery, Redis, Next.js*

Music Genre Classification with CNN

- Achieved 87% classification accuracy on the GTZAN dataset using a 6-layer CNN architecture.
- Performed 300% dataset augmentation using Librosa for improved model robustness.
- Built a Streamlit application for real-time music genre prediction with 2-second inference time.
- Deployed inference pipeline using TensorFlow Serving achieving 50ms latency.

- *Tech Stack: Python, TensorFlow, Librosa, Streamlit, FastAPI, Docker*

RAG TAG Mentor – RAG Mentor Platform for Educators

- Built a Retrieval-Augmented Generation (RAG) platform using LangChain, OpenAI, and Pinecone.
- Enabled semantic PDF querying with citation-backed responses achieving 92% response accuracy.
- Developed a React-based interface for educators reducing lesson planning time by 60%.
- Conducted beta testing with 50+ users.
- *Tech Stack: Python, FastAPI, LangChain, OpenRouter, Pinecone, React, ShadCN*

CERTIFICATIONS

Google Cybersecurity Specialization — Jul 2024

Data Analytics — YBI Foundation — Sep 2024

CSS Skill Test — HackerRank — Sep 2024

Java Programming — Infosys — Sep 2024

AREAS OF INTEREST

Agentic AI, Large Language Models, Retrieval-Augmented Generation (RAG), AI Automation, Full-Stack Development, Generative AI Systems
